Working together to improve development of health informatics in Africa.

**Next event:
GNU Health – MyGNUHealth
24 February 2021**

Meet Your Host:

Prof Graham Wright
SAHIA – EWG Chairperson
HELINA – EWG Member

Professor Graham Wright is a chartered information systems practitioner with a clinical and managerial background.

He moved to South Africa to take up the Chair of Health Sciences Research at Walter Sisulu University in 2009 and Adjunct Professor in Health Informatics at Fort University in 2014.

He is a founding member of the International Academy of Health Sciences Informatics and a Fellow of the British Computer Society.

Meet Your Presenter:

Dr Edgar Hagenbichler
vice head of unit for medical internet and telematics of Viennese Medical Association
GNU Health volunteer core team member

Dr. med. Edgar Hagenbichler is a general practitioner and psychotherapist and works as occupational health physician for SMEs and as consultant within health IT.

The Austrian Ministry of Health, the social insurance, a private hospital fund and some hospitals tasked him in the past with checking medical data quality and further developing the Austrian DRG system for financing and quality management.

He started now a research project on free medical software like GNU Health for use in Africa.

GNU Health: ICD-10 coding, recipes, referrals

In this seminar you learn about GNU Health and ICD and how to use GNU Health for documenting diagnoses and writing recipes and referrals.

You will be asked some quiz questions about GNU Health and ICD-10 and have a 5 minutes session in breakout rooms to meet your colleagues who are also interested in Free Software.
